About The Professional Chicken Series

The Professional Chickens Series encourages kids to follow their dreams. In every profession it is important to help others, to work hard, and work together. In each profession these unique funny chickens tell a story that points out what kids can learn in each professional field. These stories teach kids that when you are determined, work hard and work together, you can accomplish anything!

In this series we discover that teamwork is important. Kids learn to have respect for each other and to be supportive. Through these chickens, kids come to find out that being the boss comes with having a lot of responsibility. They come to understand why making good decisions and thinking for yourself is important. These positive lessons show how we are helping others in every profession and how rewarding that feels.

This series encourages kids to dream big! The inspiring message is about the important qualities you need to have to make your dreams come true.
