### 3. Build Like Roger! (Block Construction Activity)

**Goal:** Practice teamwork and creativity

**Materials:**

- Wooden blocks, LEGO®, or different shaped cardboard boxes
- Plastic construction hats (optional)

**How to do it:**

- Tell the class, “Let’s be like Roger and his crew! We’re going to build something together!”
- Divide kids into small groups.
- Let each group “build” a road, a bridge, or a tower using blocks.
- Encourage them to talk, share, and help each other
- Praise the kids when you hear them say (“Who can hand me a block?” “Let’s make it taller!” or a positive kind interaction).

**Talk about it after:**

- “Did you work as a team like Roger’s crew?”
- Was it hard to not fight or argue or was it easy to get along?
- “What did you build together?”
- Was it easier to build the tower with help? Or would it have been faster to build it alone?

**Lesson:** Working together makes big jobs easier and fun!
